

IHRA Cracks Down on Non-Compliant Healthcare Establishments with Zero Tolerance
 The Islamabad Healthcare Regulatory Authority (IHRA) has reaffirmed its commitment to enforcing strict healthcare regulations by conducting a rigorous inspection of 20 healthcare establishments across the capital sealing five of them. This operation is part of IHRA's ongoing efforts to ensure that all medical facilities adhere to the highest standards of patient care, safety, and ethical medical practices.

During the inspection, the IHRA team conducted a thorough assessment of each facility, focusing on compliance with legal and safety protocols, the quality of healthcare services, the functionality of medical equipment, staff qualifications, and hygiene standards. After a meticulous evaluation, five establishments were sealed due to gross violations that posed significant risks to patient safety and well-being.

IHRA has adopted a zero-tolerance policy against malpractice, negligence, and non-compliance with regulatory standards. The sealing of these establishments serves as a strong warning that any compromise on patient care will not be tolerated. The authority remains steadfast in its mission to hold healthcare providers accountable and ensure that only those facilities operating within legal and ethical boundaries continue to serve the public.

IHRA will continue to conduct regular inspections and take decisive action against violators to safeguard public health. Healthcare establishments are urged to strictly adhere to regulations to avoid legal consequences and maintain the trust of patients.
